

GARAGE EXHAUST RUBBER HOSE

Great for Fumes

GARAGE EXHAUST

FLARELOCK

APPLICATIONS

Lightweight black rubber hose for garage exhaust applications

FEATURES

- Resistant to heat, aging, gasoline, oil and fumes
- No wire or metal; even when flattened 100%, the hose immediately returns to its original shape
- Ideal for carbon monoxide exhaust applications, small cars and small trucks
- Flared end on each hose allows for connection to multiple lengths of the same size hose
- Easily spliced, connected and re-connected as needed

AVAILABLE END FITTINGS AND CONNECTORS

Aluminum Door Port

Available for Garage Exhaust series. Allows for easy outside venting through the door. Can be use on 1" thick doors.

Aluminum Pulley Elbows

Available for Garage Exhaust series. Connects two lengths of hoses for overhead systems.

Aluminum Splice Connector

Available for Garage Exhaust series. Connects two lengths of hoses together. Hose threads over connectors.

Aluminum Y Connectors

Available for Garage Exhaust series. Allows for three hoses to be joined together for dual exhaust vehicles. Hose threads over connectors.

Rubber Door Port

Available for Garage Exhaust series. Allows for easy outside venting through the door. Can be use on 1" thick doors.

Rubber Y Connectors

Available for Garage Exhaust series. Allows for three hoses to be joined together for dual exhaust vehicles. Hose threads over connectors.

Rubber Tail Pipe Adapter

Available for Garage Exhaust series. Tailpipe adapter protects the hose and tailpipe. Hook and chain holds them in place.

Twin Oval Adapter

Available for Garage Exhaust series. Tailpipe adapter protects the hose and tailpipe. Hook and chain holds them in place.

The proper use and maintenance of hose and/or duct is the sole responsibility of the purchaser and ultimate user of the product. This information is presented as a general guide only. The number of variables which can be present in any application make firm recommendations impossible. Adequate testing under actual service conditions is necessary to properly establish suitability.
