

## DRY DISCONNECT COUPLING

### APPLICATIONS

- Handling any liquid, chemicals, gas etc.

### FEATURES

- Spill free handling of liquids and gases
- Easy to use, saves time and minimizes health risks
- Minimizes the risk of "human error"
- Operator is not exposed to liquid, vapour, or gases
- Eliminates product loss upon connection / disconnection
- Reliability due to rugged design

### SIZE

- 3/4" to 6"

### MATERIAL

- Aluminum, Brass, Stainless steel, Hastelloy, Titanium, PVDF, PEEK etc.

### SEAL

- Viton, NBR, EPDM, Chemraz, Kalrez etc.

### WORKING PRESSURE

- 10-25 Bars

### REMARKS

- Threaded and flanged connections, for both hose unit and tank unit
