

*Valve size and service may lower temperature & pressure ratings

FEATURE

- Manufactured from Derakane® 470 vinyl ester resin reinforced with Glass fibers
- Highly corrosion resistant and suitable for many chemical types

SIZE RANGE

- 1" to 6"e

TYPICAL SERVICES

- Hydrochloric Acid
- Calcium Chloride

- Ferric Chloride
- Isopropyl Alcohol
- Phosphoric Acid
- Potassium Chloride
- 70% Sulfuric Acid

WORKING PRESSURE

- Max. 275 PSI

TEMPERATURE RANGE

- -50°F to 215°F (- 10°C to 102°C)
